

STANDPIPES OUT OF PLACE? WE CAN HELP.

AN ALLETE COMPANY

Effects of a harsh winter may be noticed in the landscape long after the snow is gone. Frost heaving sometimes lifts natural gas and water standpipes out of the ground, creating a potential safety hazard.

If you see a pipe sticking out of the ground in your yard, or in a street, sidewalk or boulevard, call Superior Water, Light and Power at 800-227-7957. We'll have a technician take a look and if it's a SWL&P pipe, we'll put it back in its place at no charge to you.

People who communicate in a language other than English can request translation services by calling Superior Water, Light and Power at 1-800-227-7957. We also offer a translation option at swlp.com.

REMEMBER ... **CALL 811** BEFORE YOU DIG

AN ALLETE COMPANY

Superior Water Light & Power cares about the safety of you and your family. With the arrival of spring, SWL&P wants to remind customers who are planning to dig in the yard, begin a construction project or engage in any other earth-moving activity, to **call Wisconsin's Diggers Hotline at 811.**

By calling 811, residents can have underground utility lines in the work area located and identified at no cost to you. It's a simple call that can help avoid unintended consequences such as injury to you or your family, damage to your property, utility service outages and costly repairs associated with damaged lines.
