Fire Hydrant Meter Usage Charges

Charge Item	Amount
Meter set fee - per setting	\$190
Minimum water usage charge - per setting	\$50 (mininum billing water usage)
Water usage charge	Per standard rates
Any and all damage or missing parts	Per replacement costs

Note: Meter Set Fee includes state-required testing of the backflow preventer at each installation site.

SWL&P Fire Hydrant Meter Usage Rule & Regulations

SWL&P will make available to signee a fire hydrant meter setup, including the meter, required backflow preventer, and valve for use in accordance with the following:

1. User agrees to all noted charges above.
2. User agrees to be responsible for any and all damage, or missing parts, to all components of the meter setup, including but not limited to: meter, backflow preventer, valves, hydrants, connection fitting, etc.
3. User must notify SWL&P when they are done using the meter setup so SWL&P can remove it and check it for any damage or missing parts.
4. User shall not operate the fire hydrant. Operation of the system shall only be by the hand valve.
5. User shall not remove the meter setup from its SWL&P-installed location.
6. User is responsible for all water usage recorded by the meter.
